

Program - V SEPNWG - 22 - 25 April

PROGRAM

WEDNESDAY - April 22, 2015

Arrival to Sarajevo

THURSDAY - April 23, 2015

08:40

Opening remarks

-

09:00

Senka Mesihovic-Dinarevic (BiH)

Danka Pokrajac (BiH)

Rezan Topaloglu (Turkey)

State of Art

Chairman: Rezan Topaloglu

09:00

Rosanna Coppo (Italy)

-

09:40

The dilemma about treatment of early cases of IgA nephropathy in children

Key note lecture

Chairman: Otto Mehls

09:40

Emma Francesco (Italy)

-

10:20

Renal cystic diseases

10:20

Coffee break

-

10:40

Panel hemolytic uremic syndrome

Chairman: Rosanna Coppo, Rezan Topaloglu

10:40	<i>Amira Peco-Antic (Serbia)</i>
-	
11:10	Shiga toxin-producing <i>Escherichia coli</i> hemolytic uremic syndrome
11:10	<i>Rezan Topaloglu (Turkey)</i>
-	
11:40	Atypical hemolytic uremic syndrome
11:40	<i>Fatih Ozaltin (Turkey)</i>
-	
12:10	Genetics of atypical hemolytic uremic syndrome
Lecture	
Chairman: Amira Peco Antic, Francesco Emma	
12:10	<i>Yelda Bilgner (Turkey)</i>
-	
12:50	How to treat Lupus Nephritis
12:50	<i>Fatih Ozaltin (Turkey)</i>
-	
13:30	Complement C3 related Nephropathies
Sponsored symposium	
Chairman: Senka Mesihović-Dinarević	
13:30	<i>Danka Pokrajac (BiH)</i>
-	
14:00	Nocturnal enuresis in children: etiology and evaluation
14:00	<i>Andrea Cvitkovic-Roic (Croatia)</i>
-	
14:30	News in the treatment of nocturnal enuresis in children
14:30	Lunch
-	
15:30	
Poster presentation viewing	
14:30	
-	
16:00	
Chairman: Marijan Saraga, Constatinos Stefanidis	
P1	<i>Bakkaloğlu SA, Özdemir Y, Işık Gönül I, Doğu F, Özaltın F, Mir S</i> A case with thrombotic microangiopathy resembling membranoproliferative glomerulonephritis
P2	<i>Gjinovska E, Abazi N, Sahpazova E, Kuzmanovska D, Tasic V</i> Poststreptococcal glomerulonephritis in child with single kidney
P3	<i>Zulic S, Atic N</i> Clinical characteristics of renal diseases and results of renal biopsy in children: our experience
P4	<i>Guyen S, Gokce I, Gemici O, Cicek Deniz N, Yildiz N, Alpay H</i> Persistent microscopic hematuria in children: clinical and histopathological

features

- P5 *Deniz Batu E, Orhan D, Gülhan B, Özaltın F, Özen S, Topaloglu R*
Anti-interleukin 1 treatment in secondary amyloidosis associated with systemic
juvenile idiopathic arthritis
- P6 *Selmanovic V, Pokrajac D, Dizdarevic-Omercahic A, Cengic A*
Patients with Henoch-Schonlein nephritis : what do they have in common?
- P7 *Dursun H, Cengiz N, Noyan A*
A case report of Takayasu's arteritis
- P8 *Balat A, Büyükçelik M, Akbalık Kara MA, Demircioğlu Kılıç B, Burcu Arda B,
Erdoğan B*
Tacrolimus in children with steroid-resistant nephrotic syndrome: single center
experience
- P9 *Cicek Deniz N, Alpay H, Yildiz N, Guven S, Gokce I*
Nephrotic syndrome: a single centre experience
- P10 *Putnik J, Stajic N, Paripovic A, Bogdanovic R*
Efficacy of Tacrolimus in girl with Frasier syndrome
- P11 *Golubovic E, Miljkovic P, Jankovic M*
Rare complications of pyelonephritis in childhood
- P12 *Pokrajac D, Mesihovic-Dinarevic S, Kapur-Pojkic L, Ramic J*
Plasminogen activator inhibitor-1 in renal parenchymal damage after first febrile
urinary tract infection in infants
- P13 *Soylu A, Karaman M, Alaygut D, Arslansoyu Çamlar S, Türkmen M, Kavukçu S*
Does the presence of vesicourethelial reflux affect Escheria coli growth rate in
urine?
- P14 *Karavdic K, Zvizdic Z*
Endoscopic treatment of primary vesicoureteral reflux with Deflux: surgical
outcome following single injection
- P15 *Atic N, Zulic S, Atic M, Begic H, Softic I, Jasarevic A*
Ultrasonic screening in the detection of kidney and urinary tract anomalies
- P16 *Dzananovic A, Sefic-Pasic I, Vegar-Zubovic S*
Diagnostic monitoring of patients with congenital hydronephrosis
- P17 *Hadzimuratovic A, Hadzimuratovic E, Pokrajac D*
Clinical characteristics and outcome of fetal hydronephrosis
- P18 *Ivanisevic I, Kostic M, Krstic Z, Radojicic Z, Lukac M, Sindjic S, Vujovic D, Jesic M,
Smoljanic Z, Pavicevic P, Mandic M, Djuricic G*
Clinical and epidemiological significance of CAKUT in newborns
- P19 *Sh Jusufi Sh, Kalajdzieva-Zip M, Guleva J, Mihajlovic B, Delovska V, Pensovska T,
Islami-Pocesta B*
Incidence of the congenital malformation (CM) in the uro-genital system, compared
to the incidence in other systems
- P20 *Ze'ev Katzir, Alexander Biro, Zvi Barnea, Relu Cernes, Sara Blumberg*
Dietary therapy for children with congenital solitary functioning kidney
- P21 *Büyükçelik M, Şahin N, Cüneyt Karakuş S, Akbalık Kara M, Demircioğlu Kılıç B, Balat
A*
Hyponatremic hypertensive syndrome: A rare complication of
renovascular disease
- P22 *Milardovic R, Beslic N*
Scintigraphic Captopril study in pediatric renovascular hypertension - case series

- P23 *Cengic A, Omercahic Dizdarevic A, Velma Selmanovic, Pokrajac D*
Acute kidney injury associated with macrophage activation syndrome
- P24 *Ljoljo M, Letica I, Brkic V, Glamuzina DŠ*
Acute kidney injury in critically ill newborns
- P25 *Milisic E, Serdarevic N, Halimic A, Milisic L*
Short-term changes in renal function after ESWL treatment in children with renal stone observed from the electrolytic, enzymatic level and early biomarkers
- P26 *Zvizdic Z, Milisic E, Popovic N*
Primary operative renal salvage of grade-4 blunt renal injury: a case report

Panel nephrotic syndrome

Chairman: Otto Mehls, Fatih Ozaltkin

- 16:00 *Marijan Saraga (Croatia)*
-
- 16:30
Overview of KDIGO for steroid dependent and steroid resistant nephrotic syndrome
- 16:30 *Otto Mehls (Germany)*
-
- 17:00
Efficacy and safety of rituximab in childhood steroid dependent or resistant nephrotic syndrome

Oral presentations

Chairman: Amira Peco Antic, Ayse Balat

- 17:00 *Bora Gülhan (Turkey)*
-
- 17:12
Long term follow-up of cystinosis patients in a tertiary referral center
- 17:12 *Sevcin A. Bakkaloglu (Turkey)*
-
- 17:24
The effect of dialysis initiation timing on left ventricular hypertrophy and inflammation in pediatric patients
- 17:24 *Beltinge Demircioğlu Kılıç (Turkey)*
-
- 17:36
Prevalance of hypertension with ambulatory blood pressure monitoring in long-term survivors of childhood cancer
- 17:36 *Emina Hadzimuratovic (BiH)*
-
- 17:48
Correlation between acute renal injury and brain MRI in asphyxiated newborns treated with therapeutic hypothermia
- 17:48 *Gulleroglu Kaan (Turkey)*
-
- 18:00
Continuous veno-venous hemodiafiltration in infants: One center experience
* (7 minutes presentation plus 5 minutes of questions and answers)

18:30 **Sarajevo Tour**

-

20:30

FRIDAY - April 24, 2015

State of Art

Chairman: Costantinos Stefanidis, Sevcan Bakkaloglu

09:00

Velibor Tasic (Macedonia)

-

09:40

Congenital anomalies of the kidney and urinary tract: clinical and genetical aspects

09:40

Dicle Orhan (Turkey)

-

10:20

Clinicopathology session

10:20

Coffee break

-

10:40

Panel acute kidney injury

Chairman: Velibor Tasic, Brankica Spasojevic

10:40

Sevcan Bakkaloglu (Turkey)

-

11:10

Pathogenesis of acute kidney injury

11:10

Danka Pokrajac (BiH)

-

11:40

Biomarkers in diagnosis of acute kidney injury

11:40

Brankica Spasojevic (Serbia)

-

12:10

Management of acute kidney injury

Best strategies of continuous peritoneal dialysis

Chairman: Mirjana Kostic, Sevcan Bakkaloglu

12:10

Sevcan Bakkaloglu (Turkey)

-

12:40

Best strategies of continuous peritoneal dialysis

12:40

Constantinos Stefanidis (Greece)

-

13:10

Rare complications of peritoneal dialysis: encapsulating peritoneal sclerosis - a guideline for optimal treatment.

Panel urinary tract infection

Chairman: Rajko Kenda, Yelda Bilginer

13:10

Ayse Balat (Turkey)

-

13:35

Antibiotic prophylaxis what we know

13:35

Rajko Kenda (Slovenia)

-

14:00

Antireflux operation still an option

14:00

Mirjana Kostic (Serbia)

-

14:25

Treatment of urinary tract infection after renal transplantation

Sponsored symposium

Chairman: Esra Baskin

14:25

Emma Francesco (Italy) - (working lunch)

-

14:50

Pathogenesis of cystinosis

14:50

Rezan Topaloglu (Turkey) - (working lunch)

-

15:15

Cystinosis an overview of clinical aspects

15:15

Pape Lars (Germany) - (working lunch)

-

15:40

From nephropathic cystinosis to cystinosis: paradigm shift, evolving trends in treatment and transition.

Lecture

Chairman: Otto Mehls

15:40

Emma Francesco (Italy)

-

16:10

Renal involvement in mitochondrial diseases

16:05

Coffee break

-

16:30

16:30

Poster presentation viewing

-

17:00

Chairman: Sevcan Bakkaloglu, Velibor Tasic

P27 *Milosevski-Lomic G, Kostic M, Paripovic D, Spasojevic-Dimitrijeva B, Cvetkovic M, Gojkovic I, Kruscic D, Peco-Antic A*

Serum cystatin C as a marker for early detection of chronic kidney disease in children

P28 *Milosevski-Lomic G, Kostic M, Radojicic Z, Petrovic M, Paripovic D, Spasojevic-Dimitrijeva B, Kruscic D, Peco-Antic A*

Chronic renal failure caused by a bladder stone: a case report

P29 *Paripovic D, Bojic V, Peco-Antic A*

Hypothyroidism presenting as chronic kidney disease in adolescent with Down syndrome

P30 *Radovic P, Salevic P, Ilic J, Milic N, Bogdanovic R, Paripovic D, Paripovic A, Golubovic E, Milosevic B, Mulic B, Peco-Antic A*

Nutritional status of children with chronic kidney disease

P31 *Sahpazova E, Abazi N, Kuzmanovska D*

Catheter-related complications in pediatric peritoneal dialysis in R.Macedonia

- P32 *Misanovic V, Jonuzi F, Halimic M, Anic D, Rahmanovic S*
Application of central venous catheters for acute hemodialysis - our experience
- P33 *Gülhan B, Tavit B, Tuncay Aki F, Gümrük F, Topaloğlu R*
Postoperative heparin treatment in a renal transplant patient carrying homozygous factor V Leiden, heterozygous MTHFR and PAI mutations
- P34 *Gulleroglu K, Baskin E, Kantar A, Varan B, Moray G, Haberal M*
Success of renal transplantation in high cardiovascular risk pediatric recipients
- P35 *Lungu A.C, Pop A.M, Constantinescu I, Piscoran O, Limoncu O, Stoica C*
Height and weight z score correlates with albumin levels, stronger in girls than in boys on renal replacement therapy
- P36 *Akbalık Kara M, Balat A, Büyükçelik M, Başpınar O, Gökaslan G, Demircioğlu Kılıç B, Coşkun Özsaraç M*
An unusual presentation of bilateral atrial myxoma: proteinuria and pancytopenia
- P37 *Aluloska N, Palcevska S, Papazovska A, Zdraveska N, Tasic V, Peter M*
Sy Zellweger - an unusual presentation
- P38 *Dervisov D, Tasic V*
Familial hypomagnesemia with hypercalcemia and nephrocalcinosis – fifteen year follow up of a patient
- P39 *Milicic E, Popovic N, Halimic A, Milicic L*
Congenital bladder perforation and urinary ascites caused by presacral teratoma: a case report

INVITED SPEAKERS:

- *Sevcan Bakkaloglu* (Turkey)
- *Ayşe Balat* (Turkey)
- *Yelda Bilgner* (Turkey)
- *Rosanna Coppo* (Italy)
- *Andrea Cvitkovic-Roic* (Croatia)
- *Emma Francesco* (Italy)
- *Rajko Kenda* (Slovenia)
- *Mirjana Kostic* (Serbia)
- *Otto Mehls* (Germany)
- *Dicle Orhan* (Turkey)
- *Fatih Ozaltin* (Turkey)
- *Amira Peco-Antic* (Serbia)
- *Danka Pokrajac* (Bosnia and Herzegovina)
- *Marijan Saraga* (Croatia)
- *Brankica Spasojevic* (Serbia)
- *Constantinos Stefanidis* (Greece)
- *Velibor Tasic* (Macedonia)
- *Rezan Topaloglu* (Turkey)

TOPICS:

- The dilemma about treatment of early cases of IgA nephropathy in children
- Juvenile nephronophthisis and cystic diseases
- Shiga toxin-producing *Escherichia coli* hemolytic uremic syndrome
- Atypical hemolytic uremic syndrome
- Genetics of atypical hemolytic uremic syndrome

- Complement C3 related Nephropathies
- Long term follow up and transplantation in atypical hemolytic uremic syndrome
- Complement related nephropathies
- How to treat lupus nephritis
- Nocturnal enuresis in children: etiology and evaluation
- News in the treatment of nocturnal enuresis in children
- Overview of KDIGO for steroid dependent and steroid resistant nephrotic syndrome
- Indication of rituximab and other biologics in the treatment of nephrotic syndrome
- Congenital anomalies of the kidney and urinary tract: clinical and genetical aspects
- Clinicopathology session
- Pathogenesis of acute kidney injury
- Biomarkers in diagnosis of acute kidney injury
- Management of acute kidney injury
- Best strategies of continuous peritoneal dialysis
- Rare complications of peritoneal dialysis: encapsulating peritoneal sclerosis - a guideline for optimal treatment.
- Antibiotic prophylaxis what we know
- Antireflux operation still an option
- Treatment of urinary tract infection after renal transplantation
- Renal involvement in mitochondrial diseases
