

RACHISAN ANDREEA-LIANA (Romania), MD PhD

Pediatrician

Nephrologist in training

The ESPN Fellowship Programme is an excellent, unique and unforgettable opportunity for a pediatrician to experience a subspecialty training in nephrology in one of the most prestigious centers. I am very delighted that I was able to be a part of this programme, and participated in pediatric nephrology training at HFME, Lyon (France). I would like to express my gratitude to Professor Pierre Cochat and his team who welcomed me in the department and shared their precious time and knowledge with me. My special thanks belong to the whole team, who are excellent and exceptional professionals and teachers in the field of pediatric nephrology; they have shown me the beauty of the job. We spent countless hours discussing interesting cases – from basic pediatric nephrology, renal transplantation to dialysis and research. An invaluable amount of knowledge and “pediatric nephrology secrets” were obtained at different multidisciplinary meetings and teaching sessions. Many thanks to all doctors in the department for making my time such a great learning experience. This scholarship experience considerably exceeded my expectations and I am delighted that I could implement my new skills at my hospital. Last but not least, I would like to thank ESPN for fulfilling my dreams in becoming better and more qualified pediatric nephrologist.
