

With unrestricted support

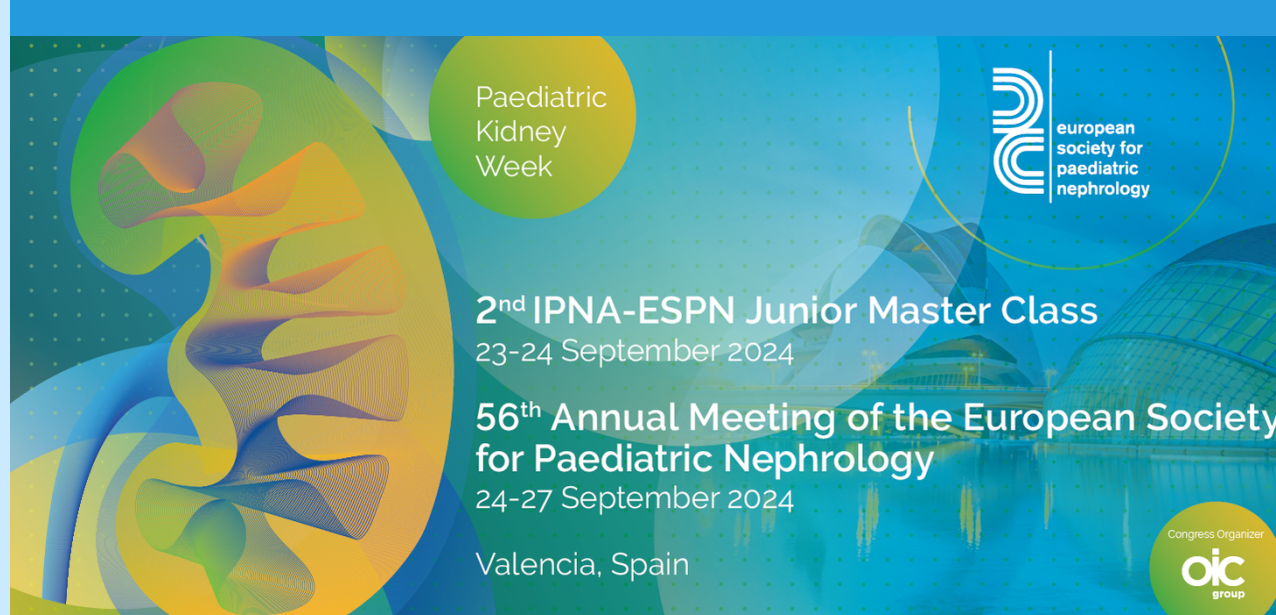

International Hypertension Network (IHN) is a non-profit educational program, fully funded and supported by Chiesi. The IHN is a multi-center educational program for pediatric nephrologists. The mission of the IHN is to make people aware of enhancing patient care and gradually transforming the lives of those living with a diagnosis of essential hypertension. To this, the IHN makes every effort to provide the best possible care to its members. The IHN's main objective is to advance the scientific knowledge concerning hypertension regulation and the consequences of its management.

The IHN is a web-based educational program that provides a diverse range of support for non-physician scientists and medical careers.

SAVE THE DATE!

14-18 October 2025

57th ESPN Annual Meeting/Paediatric Kidney Week.
Athens, Greece

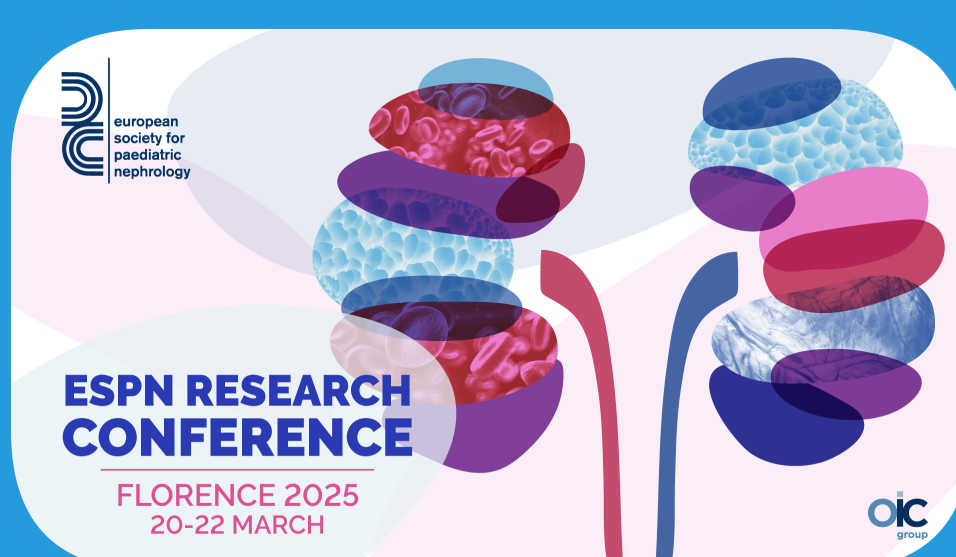

ESPN Research Conference 2025, in Florence, Italy

ESPN is excited to invite you to join the 1st ESPN Research Conference, a leading scientific conference that will bring together scientists and clinicians to share unrivalled research and inspiring new ideas.

We will discuss emerging topics of paediatric nephrology on health and disease in childhood, including translational and clinical research, ongoing clinical trials, and we will interact with adult nephrologists to share insights on mechanisms and implications.

In 2025 we will focus on the latest pre-publication research on the interplay of bones, kidneys, and cardiovascular system in health and disease in a stimulating retreat atmosphere.

Save the date and join us in Florence!
